

Dante is a mature, loveable, devoted German Shepherd. After living 7 years with his loving family, hard times hit preventing them from continuing with his allergy care. As anyone knows, to prevent flare ups with allergies, care is ongoing. The separation was heartbreaking, but best for Dante.

Dante is allergic to dust and storage mites. He needs prescription food and medication which is costly; approximately \$300 a month. Luckily, since he has been at QAS, both have been helping and his allergies are clearing up nicely. He is about to begin allergy injections to hopefully bring him more relief.

Dante wants a new home and in return, he will give you a loving, well behaved, easy to walk, cuddly, devoted companion. If interested, email Maura, our K9 manager at adoptions@quincyanimalshelter.org.

QAS is doing a drive to help with Dante's medical bills. If you can't adopt him, consider donating for [Dollars for Dante](#).
